PREFACE

The monthly Labour Force Report, Malaysia, presents the statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS). The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are used as a vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for August 2024 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

GLOSSARY Persons who were available for work and were actively looking for Actively unemployed 2 a job during the reference week. Category of skills For reporting purposes, the category of occupation is regrouped 2 into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: Skilled workers: 1. Managers; 2. Professionals; and 3. Technicians and associate professionals. Semi-skilled workers: 4. Clerical support workers; 5. Services and sales workers; 6. Skilled agricultural, forestry, livestock, and fishery workers; 7. Craft and related trades workers; and 8. Plant and machine operators and assemblers. Low-skilled workers: 9. Elementary occupations. Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with an addition of group 0 - Armed forces occupations. Economic activity Classification of industries according to the Malaysia Standard : Industrial Classification (MSIC) 2008 version 1.0 into five main sectors namely Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors. Employed All persons who, at any time during the reference week worked at 2 least one hour for pay, profit or family gain either as an employer, employee, own-account worker or unpaid family worker. Employee A person who works for a public or private employer and receives 2 regular remuneration in wages, salary, commission, tips or payment in kind. A person who operates a business, a plantation or other trade and Employer 2 employs one or more workers to help him. Employment-to-The proportion of the employed population to working-age : population ratio population. Inactively unemployed Did not look for work because they believed no work was available : or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and

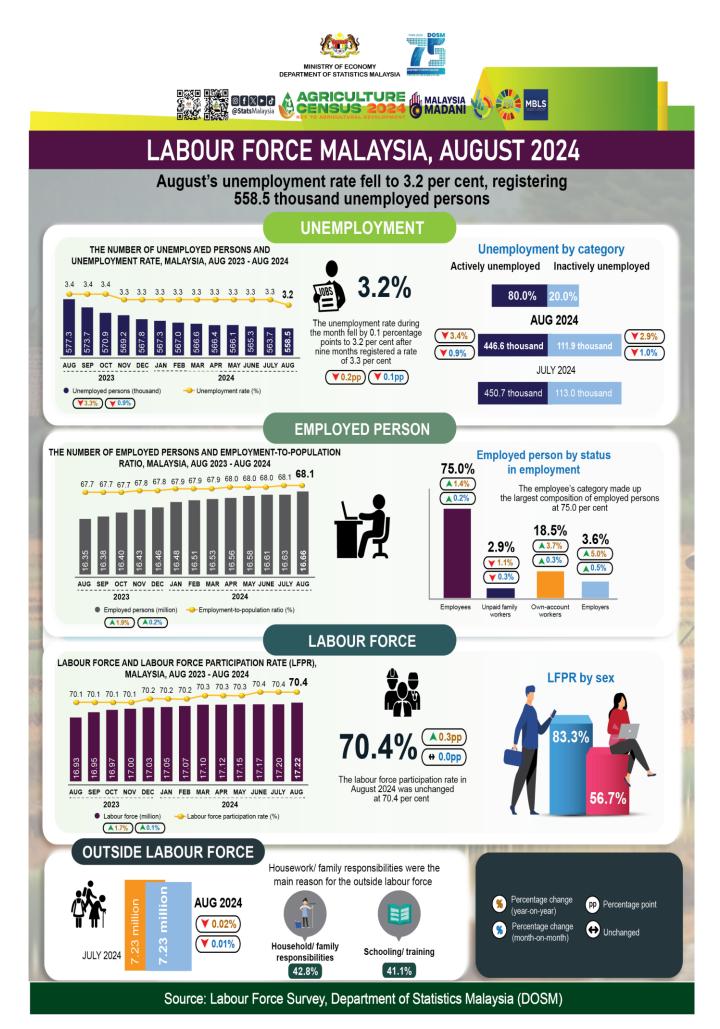

were waiting for the result of job applications.

GLOSSARY

Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers in the conduct of his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

CONCEPTS AND DEFINITIONS

MINISTRY OF ECONOMY DEPARTMENT OF STATISTICS MALAYS

What is Labour Force Survey (LFS)?

AGRICULTURE MALAYSIA CENSUS 2024 MADANI

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI)

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

MBLS

force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- . Those who did not work during the reference week but are interested to work and seeking for a job.
- · Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- · These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjusment.
- · Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data. a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

KEY REVIEWS

- The number of employed persons remained positive with a month-on-month increase of 0.2 per cent or equivalent to 29.4 thousand persons to record 16.66 million persons in August 2024 (July 2024: 16.63 million persons). The employment-to-population ratio, which indicates the ability of an economy to create employment, stood at 68.1 per cent as of July 2024.
- By economic sector, the number of employed persons in the Services sector continued its upward trend, particularly in Wholesale & retail trade; Food & beverage services; and Transportation & storage activities. Similar trends in employment were also observed in the Manufacturing, Construction, Mining & quarrying and Agriculture sectors.
- In August 2024, the employee's category, which made up the largest composition of employed persons at 75.0 per cent, improved by 0.2 per cent (+18.7 thousand persons) to 12.50 million persons (July 2024: 12.48 million persons). On the same note, the own-account workers also posted a rise of 9.5 thousand persons (+0.3%) to 3.08 million persons (July 2024: 3.07 million persons).
- The number of unemployed persons declined further in August 2024 to record 558.5 thousand persons, reduced by 0.9 per cent (-5.2 thousand persons) as compared to 563.7 thousand persons in July 2024. The unemployment rate during the month fell by 0.1 percentage points to 3.2 per cent after nine months registered a rate of 3.3 per cent.
- The number of labour force continued to increase in August 2024 with a rise of 0.1 per cent, (+24.2 thousand persons) to 17.22 million persons (July 2024: 17.20 million persons). The labour force participation rate (LFPR) during the month was unchanged at 70.4 per cent, as recorded last month.
- The number of persons outside the labour force showed a slight decline of 0.01 per cent (-0.7 thousand persons) to 7.23 million persons in August 2024 (July 2024: 7.23 million persons). Housework/ family responsibilities were the main reason for the outside labour force (42.8%), followed by schooling/ training reasons with 41.1 per cent.
- Malaysia's labour market is expected to remain stable throughout the year, driven by an increase in tourism activities, export expansion and employment-related initiatives under the country's various master plans. The performance of the labour force continues to improve, reflecting continued confidence in the job market as well as the economy. In line with the growing economy, the performance of the country's labour force is foreseen to remain stable and capable of growth in the coming months.

Note: The monthly Labour Force Survey indicators are still using the estimated population data of the Malaysia Population
and Housing Census, 2010

A STEADILY MALAYSIAN ECONOMIC OUTLOOK OBSERVED IN AUGUST 2024, CONTRIBUTED TO RESILIENT COUNTRY'S LABOUR FORCE

Malaysia's economy continued to register a healthier performance in August 2024, driven by the strengthening of the tourism sector and expansion in investment activities due to robust export demand, which further sustained Malaysia's labour market. Malaysia's uniqueness as a multicultural, multi-ethnic, and multilingual country, as well as a diversity of food, traditions, costumes, and arts, had attracted more tourists from diverse countries to travel and explore the country. Therefore, it succeeded in stimulating an increase in tourism-related activities that was beneficial to domestic tourism, thus helping to further boost the local economy and develop various job opportunities in the labour market through various business activities during the month.

Furthermore, the continuous increase in demand for Malaysian products had boosted exports and attracted various investment activities, especially in manufacturing firms in semiconductor sectors, to enhance the production of the demand products. According to *Yang Berhormat Tuan* Lee Ting Han, Johor State Executive Council (EXCO) and Chairman of Investment, Trade, Consumer Affairs, and Human Resources, the opening of new factories from Singapore, such as IMin Technology was beneficial in creating more jobs and strengthening the supply chain to meet the global demand from fast-growing clients¹. The opening of companies from other countries to invest in Malaysia not only strengthened the country's economy growth but also helped to nourish the labour market during the month. Thus, a steadily Malaysian economic outlook in August 2024 has contributed to the country's resilient labour force, with increasing employment while the number of unemployed continued to decline.

As for the performance of Malaysia's Leading Index (LI) in July 2024, Malaysia's economy is expected to continue strengthening in the fourth quarter of 2024, registering a rise of 5.2 per cent to 115.1 points compared to the same month of the previous year (July 2023: 109.4 points). Likewise, the monthly performance for the LI also registered a rebound of 1.1 per cent in July 2024 as against a decline of 0.4 per cent in the previous month. Looking at the smoothed long-term trend in July 2024, LI consistently exceeded 100.0 points, illustrating a resilient Malaysian economy supported by positive expansion in domestic consumption and continued demand by external markets. In the meantime, the monthly external trade indicators for August 2024, both exports and imports, dropped by negative 1.5 per cent (July 2024: +4.0%) and negative 1.0 per cent (July 2024: +11.6%), respectively.

A positive trend of employed persons remained in August 2024

The number of **employed persons** remained positive with a month-on-month increase of **0.2 per cent** or equivalent to **29.4 thousand persons** to record **16.66 million persons** in August 2024 (July 2024: 16.63 million persons). Similarly, in terms of seasonally adjusted, the number of employed persons heightened by 0.2 per cent. In the meantime, comparing year-on-year, the number of employed persons continued to rise by 1.9 per cent, equivalent to 306.5 thousand persons (August 2023: 16.35 million persons).

By economic sector, the number of employed persons in the Services sector continued its upward trend, particularly in Wholesale & retail trade; Food & beverage services; and Transportation & storage

https://backstage2020.wordpress.com/2024/08/01/imin-technology-buka-kilang-baru-di-johor/#:~:text=Johor%20Bahru%2C%201%20Ogos%202024.Bhd

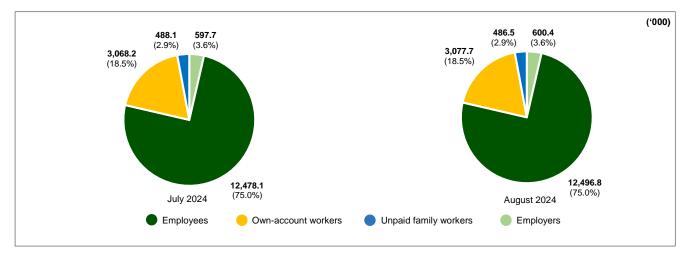

activities. Similar trends in employment were also observed in the Manufacturing, Construction, Mining & quarrying and Agriculture sectors.

The **employment-to-population ratio**, which indicates the ability of an economy to create employment, stood at **68.1 per cent** as of July 2024. On a yearly comparison, the ratio rose by 0.4 percentage points compared to the 67.7 per cent registered in August 2023 **[Chart 1]**.

Chart 1: Employed persons and employment-to-population ratio, January 2019 - August 2024

In August 2024, the **employee's** category, which made up the largest composition of employed persons at **75.0 per cent**, improved by **0.2 per cent (+18.7 thousand persons)** to **12.50 million persons** (July 2024: 12.48 million persons). On the same note, the **own-account workers** also posted a rise of **9.5 thousand persons (+0.3%)** to **3.08 million persons** (July 2024: 3.07 million persons). This category consists mostly of daily income earners working as small businesses, such as small retailers, hawkers and sellers in markets and stalls, as well as smallholders **[Chart 2]**.

The number of **employed persons who were temporarily not working** recorded a decrease of **2.1 per cent** or equivalent to **1.6 thousand persons** to **75.6 thousand persons** during the month (July 2024: 77.2 thousand persons). Comparing one year earlier, this category also edged down by 9.1 per cent (-7.5 thousand persons) from 83.2 thousand persons in August 2023. This group of persons, who were most likely not able to work temporarily, were not classified as unemployed as they had work to return to.

August's unemployment rate fell to 3.2 per cent

The number of **unemployed persons** declined further in August 2024 to record **558.5** thousand **persons**, reduced by **0.9** per cent (-5.2 thousand persons) as compared to 563.7 thousand persons in July 2024. The **unemployment rate** during the month fell by **0.1** percentage points to **3.2** per cent after nine months registered a rate of 3.3 per cent. Based on the seasonally adjusted terms, the number of unemployed persons decreased by 0.3 per cent, with an unemployment rate of 3.2 per cent.

As compared to the same month of the preceding year, the number of unemployed persons posted a decrease of 3.3 per cent or equivalent to a reduction of 18.8 thousand persons (August 2023: 577.3 thousand persons). Subsequently, the unemployment rate went down by 0.2 percentage points as compared to 3.4 per cent in August 2023 [Chart 3].

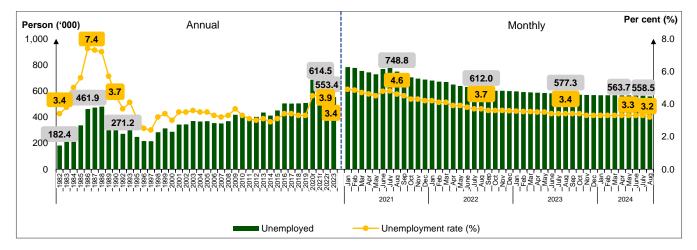

Chart 3: Unemployed persons and unemployment rate, 1982 - 2023 and January 2021 - August 2024

By category of unemployment, most of the unemployed persons were **actively unemployed** or those who were available for work and actively seeking jobs, encompassing **80.0 per cent**. This category registered a decline of **0.9 per cent (-4.1 thousand persons)** to record **446.6 thousand persons** (July 2024: 450.7 thousand persons). Among the actively unemployed, **61.8 per cent** were those who were **unemployed for less than three months**, while **6.6 per cent** were those who were **unemployed for less than three months**.

Likewise, those who believed that no jobs were available or the **inactively unemployed** posted a decrease of **1.0 per cent** to **111.9 thousand persons** as against last month (July 2024: 113.0 thousand persons).

² Referring to a person who has been unemployed for one year or longer (Source: KILM: Long-term unemployment) <u>https://www.ilo.org/wcmsp5/groups/public/---dgreports/---stat/documents/publication/wcms_422451.pdf</u>

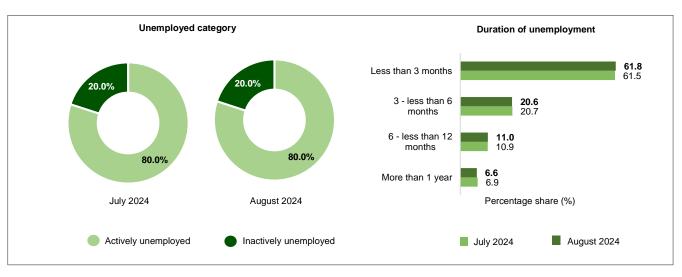

Chart 4: Unemployed category and duration of unemployment, July 2024 and August 2024

As illustrated in **Chart 5**, the unemployment rate for youth aged **15 to 24 years** declined by **0.1 percentage points** to **10.4 per cent**, recording the number of unemployed youths at **303.0 thousand persons** in August 2024 (July 2024: 10.5%; 304.5 thousand persons).

At the same time, the unemployment rate for youth aged **15 to 30 years** decreased by **0.1 percentage points** to **6.4 per cent**, with a total number of **428.5 thousand unemployed youths** compared to 433.1 thousand unemployed youths recorded in July 2024.

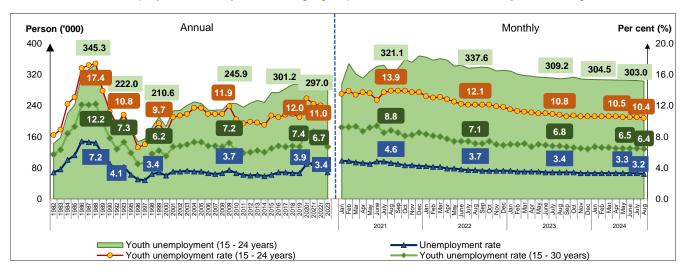

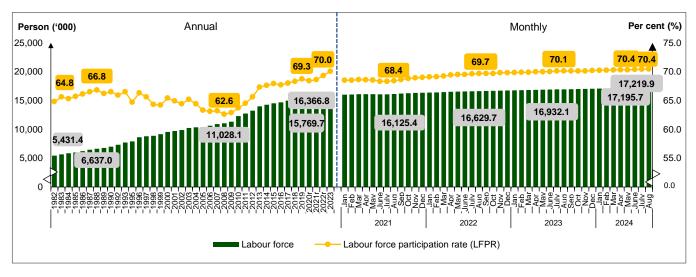

Chart 5: Unemployment rate by selected age groups, 1982 - 2023 and January 2021 - August 2024

The LFPR in August 2024 was unchanged at 70.4 per cent

The number of **labour force** continued to increase in August 2024 with a rise of **0.1 per cent** (+24.2 thousand persons) to 17.22 million persons (July 2024: 17.20 million persons). The **labour** force participation rate (LFPR) during the month was unchanged at 70.4 per cent, as recorded last month. In seasonally adjusted terms, the number of labour force increased by 0.1 per cent, with the LFPR of 70.5 per cent as of August 2024.

In a year-on-year comparison, the number of labour force recorded an addition of 287.8 thousand persons (+1.7%) from 16.93 million persons in August 2023. Therefore, the LFPR heightened by 0.3 percentage points as compared to August 2023 at 70.1 per cent [Chart 6].

During the month, the **male labour force** continued to rise to record **10.52 million persons** (July 2024: 10.51 million persons), as well as the **female labour force**, which also increased to **6.70 million persons** (July 2024: 6.69 million persons). In terms of rates, the LFPR for **male** and **female** remained at **83.3 per cent** and **56.7 per cent**, respectively, as of July 2024.

Comparing to one year earlier, both the male and female labour force continued to increase by 1.7 per cent, respectively (August 2023: 10.35 million persons; 6.58 million persons). Accordingly, male LFPR went up by 0.3 percentage points (August 2023: 83.0%), while female LFPR rose by 0.4 percentage points compared to 56.3 per cent in August 2023 [Chart 7].

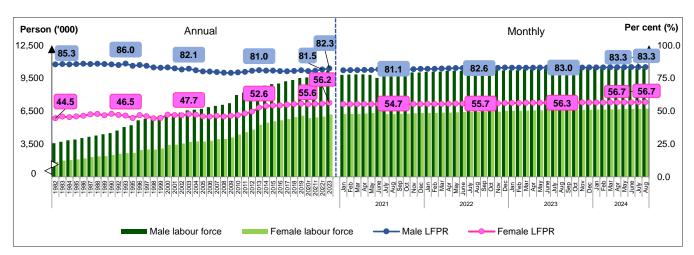

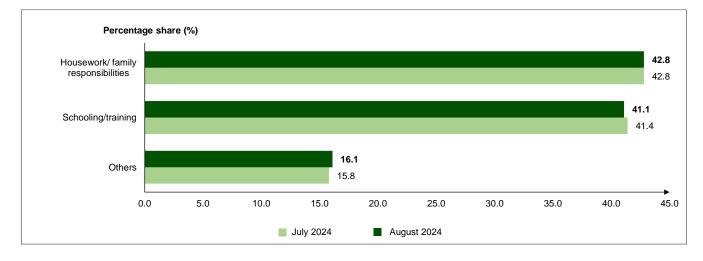

Chart 7: Labour force and LFPR by sex, 1982 - 2023 and January 2021 - August 2024

Housework/ family responsibilities were the main reason for the outside labour force

The number of persons **outside the labour force** showed a slight decline of **0.01 per cent** (-0.7 thousand persons) to **7.23 million persons** in August 2024 (July 2024: 7.23 million persons). Year by year, the number registered a marginal decline of 0.02 per cent or equivalent to a reduction of 1.3 thousand persons, compared to the same month last year (August 2023: 7.23 million persons). Housework/ family responsibilities were the main reason for the outside labour force (42.8%), followed by schooling/ training reasons with 41.1 per cent [Chart 8].

6 LOOKING AHEAD

Looking at the country's growing economic position and anticipated to maintain a growth of 5.0 per cent in 2024, Malaysia's labour market is expected to remain stable throughout the year, driven by an increase in tourism activities, export expansion and employment-related initiatives under the country's various master plans³. The performance of the labour force continues to improve, reflecting continued confidence in the job market as well as the economy.

In addition, the strengthening of the ringgit against the US dollar is also seen to have a significant impact on the country's confidence and be able to drive the country to achieve fast growth, supported by a rapidly growing economy. This situation is seen to be able to increase investor confidence in the country and attract global attention.

Furthermore, the launch of the New Industrial Master Plan 2030 (NIMP 2030) has the potential to trigger major changes for the Malaysian economy, especially in the Manufacturing sector. Therefore, focus should be given on several things, especially involving investment in industry, skilled employees and the use of technology that is seen to be able to further enhance Malaysia's competitiveness, as well as attract high-value and high-growth (HGHV) investments. Therefore, it is expected to generate income through manufacturing activities, create high-value jobs, and strengthen Malaysia's position in the global value chain.

In line with the growing economy, it is able to increase high-quality job opportunities as well as better income and living standards for the people. This is coupled with various activities or initiatives organised

³ <u>https://www.sinarharian.com.my/article/684884/bisnes/kdnk-malaysia-diunjur-berkembang-lebih-50-peratus---penganalisis</u>

by various agencies in an effort to provide business or employment opportunities to various levels of society, such as the MITI Day 2024 event on 1 October 2024, organised by the Ministry of Investment, Trade and Industry (MITI), which offers more than 2,600 job opportunities to youth and job seekers⁴. Various opportunities and incentives are also offered to women as well as micro, small and medium enterprises (MSMEs) through the involvement of more than 80 local and international companies in the programme.

In this regard, the performance of the country's labour force is foreseen to remain stable and capable of growth in the coming months in line with Malaysia's economic performance, which is expected to continue to strengthen in the fourth quarter of 2024.

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Malavsia Population and Housing Census, 2010

2. ¹For 1982- 2000, category of occupation are classified according to the "Dictionary

of Occupational Classification, 1980" as follows:

1: Professional, technical and related workers

- 2: Administrative and managerial workers
- 3: Clerical and related workers
- 4: Sales workers 5: Service workers
- 6: Agricultural, animal husbandry and forestry workers, fishermen and hunters

7: Production and related workers, transport equipment operators and labourers

3. ²For 2001 - 2010, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 1998" as follows:

- 1: Legislators, senior officials and managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural and fishery workers
- 7: Craft and related trade workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

4. ³For 2011 - 2015, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2008" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service workers and shop and market sales workers6: Skilled agricultural, forestry and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

 $5.\,^4\text{For}$ 2016 - 2021, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2013" as follows:

- 1: Managers
 - 2: Professionals
 - 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service and sales workers6: Skilled agricultural, forestry, livestock and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations
- ⁵For 2022 onwards, categories of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2020"
- 7. $^{\rm r}$ Revision based on the current population estimates from Population and Housing Census 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Malaysia Population and Housing Census, 2010

$2.\ ^{1}\mbox{For 1982}$ - 2000, industry was classified according to the "Malaysia Industrial

- Classification, (Updated) 1972" as follows:
- A: Agriculture, forestry, livestock and fishing
- B: Mining and quarrying C: Manufacturing
- D: Electricity, gas and water
- E: Construction
- F: Wholesale and retail trade, restaurants and hotels
- G: Transport, storage and communications
- H: Finance, insurance, real estate and business services I: Community, social and personal services

3.²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
- B: Fishing
- C: Mining and quarrying
- D: Manufacturing
- E: Electricity, gas and water supply
- F: Construction
- G: Wholesale and retail trade: repair of motor vehicles, motorcycles and personal and household goods
- H: Hotels and restaurants
- I: Transport, storage and communications
- J: Financial intermediation
- K: Real estate, renting and business activities
- L: Public administration and defence; compulsory social security
- M: Education
- N: Health and social work
- O: Other community, social and personal service activities
- P: Private households with employed persons

- 4. ³For 2010 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:
- A: Agriculture, forestry and fishing
- B: Mining and quarrying C: Manufacturing
- D: Electricity, gas, steam and air conditioning supply
- E: Water supply; sewerage, waste management and remediation activities
- F: Construction
- G: Wholesale and retail trade, repair of motor vehicles and motorcycles
- H: Transportation and storage I: Accommodation and food service activities
- J: Information and communication
- K: Financial and insurance/takaful activities L: Real estate activities
- M: Professional, scientific and technical activities N: Administrative and support service activities
- O: Public administration and defence; compulsory social security
- P: Education
- Q: Human health and social work activities
- R: Arts, entertainment and recreation
- S. Others service activities
- T: Activities of households as employers
- 5. ⁴For year 2011-2019 & 2021-2023, total includes 'Activities of extraterritorial organizations and bodies'
- 6. ^r Revision based on the current population estimates from Population and Housing Census 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Malaysia Population and Housing Census, 2010

2. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

- A: Agriculture, forestry, livestock and fishing
- B: Mining and quarrying
- C: Manufacturing
- D: Electricity, gas and water
- E: Construction
- F: Wholesale and retail trade, restaurants and hotels G: Transport, storage and communications
- H: Finance, insurance, real estate and business services
- I: Community, social and personal services

3.²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
- B: Fishing
- C: Mining and quarrying
- D: Manufacturing
- E: Electricity, gas and water supply
- F: Construction
- G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
- H: Hotels and restaurants
- I: Transport, storage and communications
- J: Financial intermediation
- $\mathbf{K}:$ Real estate, renting and business activities L: Public administration and defence; compulsory social security
- M: Education
- N: Health and social work
- O: Other community, social and personal service activities
- P: Private households with employed persons

- $4.\ ^3$ For 2010 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:
- A: Agriculture, forestry and fishing
- B: Mining and quarrying
- C: Manufacturing
- D: Electricity, gas, steam and air conditioning supply
- E: Water supply; sewerage, waste management and remediation activities
- F: Construction
- G: Wholesale and retail trade, repair of motor vehicles and motorcycles
- H: Transportation and storage
- I: Accommodation and food service activities
- J: Information and communication
- K: Financial and insurance/takaful activities
- L: Real estate activities
- M: Professional, scientific and technical activities
- N: Administrative and support service activities
- O: Public administration and defence; compulsory social security
- P: Education
- Q: Human health and social work activities
- R: Arts, entertainment and recreation
- S: Others service activities
- T: Activities of households as employers
- 5. ⁴For year 2011-2019 & 2021-2023, total includes 'Activities of extraterritorial organizations and bodies
- 6. r Revision based on the current population estimates from Population and Housing Census 2020
