PREFACE

The monthly Labour Force Report, Malaysia, presents the statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS) through a household approach. The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for January 2025 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

| GLOSSARY | | |
|------------------------------------|---|--|
| Actively unemployed | : | Persons who were available for work and were actively looking for a job during the reference week. |
| Category of skills | : | For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: |
| | | Skilled workers: |
| | | 1. Managers; |
| | | 2. Professionals; and |
| | | 3. Technicians and associate professionals. |
| | | Semi-skilled workers: |
| | | 4. Clerical support workers; |
| | | 5. Services and sales workers; |
| | | 6. Skilled agricultural, forestry, livestock, and fishery workers; |
| | | 7. Craft and related trades workers; and |
| | | 8. Plant and machine operators and assemblers. |
| | | Low-skilled workers: |
| | | 9. Elementary occupations. |
| | | Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with the addition of group 0 - Armed Forces occupations. |
| Economic activity | : | Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors: Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors. |
| Employed | : | All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker or unpaid family worker. |
| Employee | : | A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind. |
| Employer | : | A person who operates a business, a plantation or other trade and employs one or more workers to help him. |
| Employment-to- population ratio | : | The proportion of the employed population to working-age population. |
| Inactively unemployed | : | Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications. |

GLOSSARY

| Labour force participation rate | : | The ratio of the labour force to the working-age population, expressed as a percentage. |
|----------------------------------|---|---|
| Outside labour force | : | All persons not classified as employed or unemployed are classified as outside the labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job. |
| Own-account worker | : | A person who operates his own farm, business or trade without employing any paid workers to conduct his farm, trade or business. |
| Skill-related underemployment | : | Those with tertiary education and working in the semi-skilled and low-skilled categories. |
| Time-related underemployment | : | A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment. |
| Unemployed | : | Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed. |
| Unemployment rate | : | The proportion of the unemployed population to the total population in the labour force, expressed as a percentage. |
| Unpaid family worker | : | A person who works without pay or wages on a farm, business or trade operated by another member of the family. |

EXPLANATORY NOTES

Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia.

The revision of the LFS data series is performed when the most recent Population and Housing Census data of 2020 is available. This census data is then used for the revision of the LFS data series to include additional information available from the latest Population and Housing Census. This process of incorporating revised population benchmarks is referred to as rebasing. On the same note, revisions are carried out on LFS data for January to December 2024 in stages beginning with January and December data.

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjusment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/ trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

KEY REVIEWS

- In January 2025, the number of employed persons improved further with a rise of 0.3 per cent (+54.5 thousand persons), reaching 16.68 million (December' 2024: 16.63 million persons). The employment-to-population ratio, which indicates the ability of an economy to create employment, rose by **0.1 percentage points** to **68.5 per cent** (December^r 2024: 68.4%).
- By economic sector, employment in the Services sector showed steady growth, particularly in Accommodation and food & beverage services; Wholesale & retail trade; and Human health and social work activities. Likewise, the Manufacturing, Construction and Agriculture and Mining & quarrying sectors also experienced positive employment growth in January 2025.
- In January 2025, **75.3 per cent** of the total employed persons were in the **employees**' category, registering an increase of 0.3 per cent (+32.0 thousand persons) to 12.56 million persons (December' 2024: 12.53 million persons). Similarly, the number of own-account workers rose by 0.7 per cent (+21.6 thousand persons), totalling 3.11 million (December^r 2024: 3.09 million persons).
- The number of **unemployed persons** continued to decrease in January 2025, with a reduction of 4.7 thousand persons (-0.9%) to 533.8 thousand persons (December^r 2024: 538.5 thousand persons). The **unemployment rate** during the month remained at **3.1 per cent** as recorded in the previous month.
- In January 2025, the number of labour force improved further with a rise of 0.3 per cent (+49.8 thousand persons) to record 17.22 million persons (December^r 2024: 17.17 million). January's labour force participation rate (LFPR) was unchanged at 70.6 per cent as in the prior month.
- The number of persons outside the labour force in January 2025 slightly decreased by 0.03 per cent (-2.0 thousand persons) to 7.15 million persons (December' 2024: 7.16 million persons). The major composition of the outside labour force was housework/ family responsibilities, accounting for 43.6 per cent, followed by the schooling/ training category at 41.8 per cent.
- Malaysia's resilient economic position had a positive impact on the country's labour market. This situation is supported by strong domestic demand, government initiatives, increased tourism activities, and ongoing investment activities in infrastructure projects and key sectors. Moreover, the role of Malaysia as ASEAN Chairman 2025 is expected to have a favourable impact on the performance of the country's labour market by increasing investment, rural development, labour skills, and the halal sector. Therefore, in line with the country's growing economic performance and strong growth in the major sector of the country's economy, the nation's labour market is foreseen to remain in a stable growth momentum with an increasing number of employments, while unemployment is declining.

INTRODUCTION

MALAYSIA'S LABOUR FORCE SITUATION IN JANUARY 2025 CONTINUED TO FLOURISH. REFLECTING THE HEALTHIER COUNTRY'S ECONOMIC DEVELOPMENT

In January 2025, the Malaysian labour market continued to sustain its better performance driven by the stable country's economy, which is supported by the expansion in the semiconductor industry and the improvement in advanced technology usage that led to a strong investment from the largest companies in the world. According to Prof. Dr. Chris Miller, a professor of international history at The Fletcher School, Tufts University, many investors are attracted to making investments in Malaysia. These are important for the country, as they emphasise specialised semiconductor chip architectures, reinforcing Malaysia's standing in the global chip supply chain¹. Thus, this initiative had led to a massive attraction of companies from other countries to invest in Malaysia, not only strengthening the country's economic growth but also helping to nourish the labour market. Thus, a steady Malaysian economic outlook in early 2025 has contributed to the country's resilient labour force, with increasing employment while the number of unemployed continued to decline.

In addition, the government's concern in Micro, Small and Medium Enterprises (MSMEs) has had an impact on a better country's economy. The government has implemented initiatives such as the Malaysia Digital Economy Blueprint, MyDigital, and the National AI Roadmap 2021-2025 to equip the workforce for the digital economy and benefit from the expansion in MSME. These programs emphasise upskilling and reskilling, particularly in artificial intelligence and digital technologies. This demonstrates the government's dedication to strengthening Malaysia's labour force by attracting investments, generating job opportunities, and providing workers with essential skills for emerging industries.

Minister of Communications and Digital, Yang Berhormat Tuan Gobind Singh Deo, underscored the ministry's commitment to identifying and addressing these challenges through initiatives such as the Malaysia Digital Tour and the program purposely to obtain feedback from MSME entrepreneurs². This has benefited the government in understanding the difficulties faced by MSMEs in adopting digital solutions. The Malaysian government has stepped up its efforts to drive the country's digital transformation. The government has launched initiatives to tackle digitalisation challenges, allowing MSMEs to boost productivity and stay competitive. This support has also paved the way for the adoption of advanced technologies, resulting in the creation of new job roles and the enhancement of existing employees' skills. Therefore, Malaysia's labour force situation in January 2025 continued to flourish, reflecting the healthier country's economic development.

Additionally, the Leading Index (LI), which indicates the direction of Malaysia's economy, recorded an increase of 3.1 per cent to 113.6 points in December 2024 compared to 110.2 points in the same month a year ago, signalling Malaysia's economic performance continues to show encouraging progress. On the same note, the LI's monthly performance recorded an increase of 0.8 per cent in December 2024 as against last month. Looking at the smoothed long-term trend in December 2024, the LI continued below 100.0 points. Nevertheless, Malaysia's economy is expected to remain resilient, supported by strong domestic demand following the implementation of salary increases for civil servants, the adjustment of the minimum wage, and a strengthening of the labour market. In the meantime, the monthly external trade indicators for January 2025, both exports and imports, recorded a negative month-on-month growth of 11.3 per cent (December 2024: +9.6%), and -0.2 per cent (December 2024: +7.3%), respectively, compared to positive growth last month.

2 EMPLOYED PERSONS

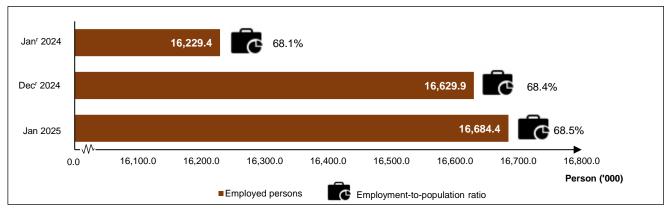

The number of employed persons improved further in January 2025

In January 2025, the number of **employed persons** improved further with a rise of **0.3 per cent** (+54.5 thousand persons), reaching 16.68 million persons (December^r 2024: 16.63 million persons). Seasonally adjusted estimates indicated an increase in employment by 0.5 per cent. On a year-on-year basis, employment went up by 2.8 per cent (+455.0 thousand persons), compared to 16.23 million in January^r of the previous year.

By economic sector, employment in the Services sector showed steady growth, particularly in Accommodation and food & beverage services; Wholesale & retail trade, and Human health and social work activities. Likewise, the Manufacturing, Construction, Agriculture and Mining & quarrying sectors also experienced positive employment growth in January 2025.

The **employment-to-population ratio**, which indicates the ability of an economy to create employment, rose by **0.1 percentage points** to **68.5 per cent** (December^r 2024: 68.4%). Compared to the same month last year, the ratio increased by 0.4 percentage points from 68.1 per cent in January^r 2024 **[Chart 1]**.

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

In January 2025, **75.3 per cent** of the total employed persons were in the **employees**' category, registering an increase of **0.3 per cent (+32.0 thousand persons)** to **12.56 million persons** (December^r 2024: 12.53 million persons). Similarly, the number of **own-account workers** rose by **0.7 per cent (+21.6 thousand persons)**, totalling **3.11 million persons** (December^r 2024: 3.09 million persons). This group mainly consists of daily wage earners working as small business operators, such as retailers, hawkers, market and stall vendors, as well as smallholders **[Chart 2]**.

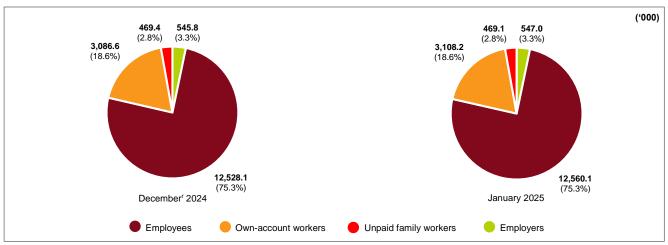

Chart 2: Employed person by status in employment, December^r 2024 and January 2025

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

During the month, the number of **employed persons who were temporarily not working** increased to **89.3 thousand persons**, showing a rise of **12.0 per cent** or equivalent to **9.6 thousand persons** (December' 2024: 79.7 thousand persons). On a yearly comparison, this figure increased by 10.8 per cent (+8.7 thousand persons) from 80.6 thousand persons in January' 2024. This group includes individuals who were temporarily unable to work but were not classified as unemployed, as they had jobs to return to.

3 UNEMPLOYMENT

The unemployment rate remained at 3.1 per cent in January 2025

The number of **unemployed persons** continued to decrease in January 2025, with a reduction of **4.7 thousand persons (-0.9%)** to **533.8 thousand persons** (December^r 2024: 538.5 thousand persons). The **unemployment rate** during the month remained at **3.1 per cent** as recorded in the previous month. In seasonally adjusted terms, the number of unemployed persons edged down by 1.2 per cent, with an unemployment rate of 3.1 per cent.

The number of unemployed persons reduced by 4.7 per cent (-26.1 thousand persons) year-on-year compared to 559.9 thousand persons recorded in January^r 2024. Accordingly, the unemployment rate declined by 0.2 percentage points as against 3.3 per cent in the same month of the previous year **[Chart 3]**.

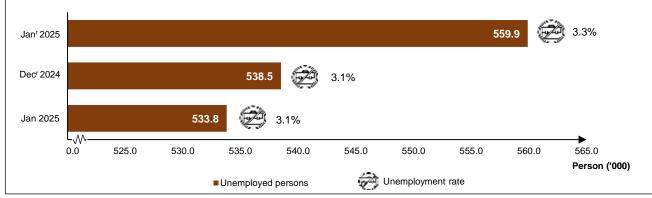

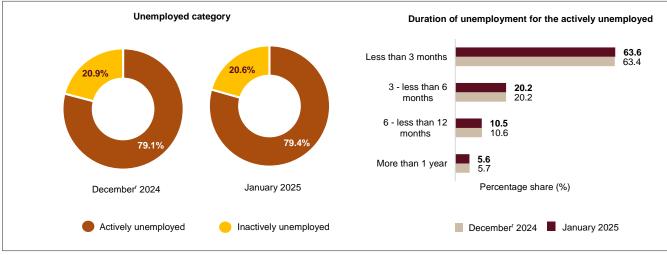

Chart 3: Unemployed and unemployment rate, January^r 2024, December^r 2024 and January 2025

Note: r Revision based on the current population estimates from Population and Housing Census 2020

In January 2025, **79.4 per cent** of the total unemployed persons were those who were available for work and were actively seeking jobs or the **actively unemployed**. This group decreased by **0.5 per cent** (-2.1 thousand persons) to record **423.6 thousand persons** (December^r 2024: 425.7 thousand persons). By duration of unemployment for the actively unemployed, those who were **unemployed for less than three months** accounted for **63.6 per cent**, whereas those who were **unemployed for more than a year**³ were at **5.6 per cent [Chart 4]**.

On the same note, the **inactively unemployed** or those who believed that no jobs were available went down by **2.3 per cent (-2.6 thousand persons)** to **110.2 thousand persons** compared to 114.9 thousand persons as of January^r 2024.

Chart 4: Unemployed category and duration of unemployment for the actively unemployed, December^r 2024 and January 2025

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

The unemployment rate for youth aged **15 to 24 years** during the month declined by **0.1 percentage points** to **10.3 per cent**, recording **299.3 thousand unemployed youths** (December^r 2024: 10.4%; 301.4 thousand persons). Meanwhile, the unemployment rate among youth aged **15 to 30 years** stood at **6.3 per cent**, with the number of unemployed youths at **402.4 thousand persons** as against 400.7 thousand unemployed youths recorded in December^r 2024 [Chart 5].

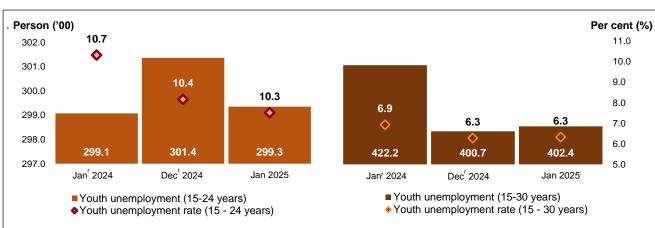

Chart 5: The number of unemployed persons and unemployment rate by selected age groups, January^r 2024, December^r 2024 and January 2025

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

³ Referring to a person who has been unemployed for one year or longer (Source: KILM: Long-term unemployment) <u>https://www.ilo.org/wcmsp5/groups/public/---dgreports/---stat/documents/publication/wcms_422451.pdf</u>

4 LABOUR FORCE

January's LFPR was unchanged at 70.6 per cent

In January 2025, the number of **labour force** improved further with a rise of **0.3 per cent** (+49.8 thousand persons) to record 17.22 million persons (December^r 2024: 17.17 million). January's **labour force participation rate (LFPR)** was unchanged at 70.6 per cent as in the prior month. Based on seasonally adjusted data, the labour force rose by 0.4 per cent, recording the LFPR of 70.6 per cent.

Compared to January^r of the previous year, the labour force rose by 2.3 per cent, or equivalent to 428.9 thousand persons (January^r 2024: 16.79 million persons). Accordingly, the LFPR rose by 0.1 percentage points from 70.5 per cent in January^r 2024 [Chart 6].

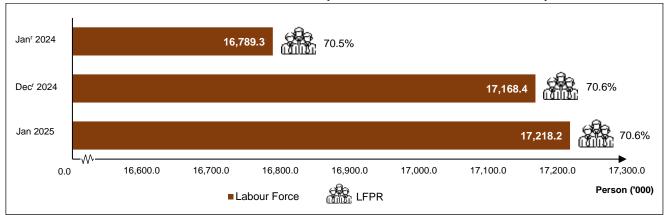

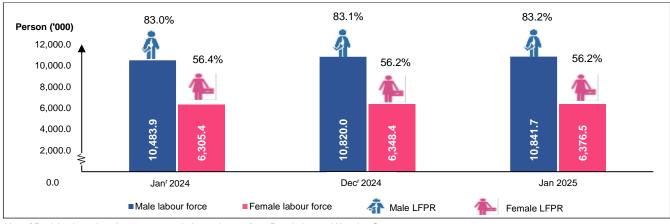

Chart 6: Labour force and LFPR, January^r 2024, December^r 2024 and January 2025

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

Both male and female labour forces in January 2025 were increased. The **male labour force** edged up to **10.84 million persons** compared to 10.82 million persons in December^r 2024, while the **female labour force** rose to **6.38 million persons** from 6.35 million in the previous month. Consequently, the **male LFPR** increased by **0.1 percentage points** to **83.2 per cent** (December^r 2024: 83.1%), while the **LFPR** for **females** remained unchanged at **56.2 per cent**.

On a year-on-year basis, the male labour force improved by 3.4 per cent (January^r 2024: 10.48 million persons), while the female labour force increased by 1.1 per cent from 6.31 million persons in January^r last year. Therefore, the LFPR for males increased by 0.2 percentage points from 83.0 per cent. Meanwhile, the female LFPR declined by 0.2 percentage points compared to 56.4 per cent in January^r 2024 **[Chart 7]**.

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

5 OUTSIDE LABOUR FORCE

The major composition of the outside labour force was housework/ family responsibilities

The number of persons **outside the labour force** in January 2025 slightly decreased by **0.03 per cent** (-2.0 thousand persons) to **7.15 million persons** (December^r 2024: 7.16 million persons). Compared to the same month last year, the number of persons outside the labour force increased by 1.8 per cent or equivalent to 128.0 thousand persons (January^r 2024: 7.03 million persons). The major composition of the outside labour force was **housework/ family responsibilities**, accounting for **43.6 per cent**, followed by the **schooling/ training** category at **41.8 per cent [Chart 8]**.

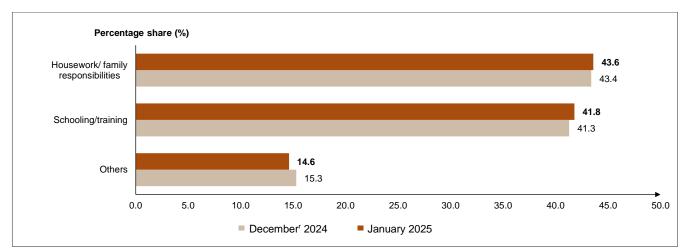

Chart 8: Share of outside labour force by reasons for not seeking work, December 2024 and January 2025

Note: ^r Revision based on the current population estimates from Population and Housing Census 2020

6 LOOKING AHEAD

In January 2025, the Malaysian economy showed stable growth despite some challenges in trade and inflation. Malaysian exports and imports recorded an annual increase, while inflation remained

1.7 per cent in January 2025⁴. Malaysia's resilient economic position during the month had a positive impact on the country's labour market, with low unemployment and the number of employed persons continues to rise.

This situation is supported by strong domestic demand and continues to support business growth and job creation⁵. In addition, government initiatives aimed at improving labour skills and generating new job opportunities are seen to help sustain the stability of the labour market.

Furthermore, increased tourism activities are also seen as contributing to the creation of employment opportunities in the services sector. Meanwhile, ongoing investment activities in infrastructure projects and key sectors help stimulate economic growth and labour demand to meet industry needs.

In addition, based on the forecast of business performance for the first quarter of 2025, businesses expect a favourable business environment in the first quarter of 2025, supported by a positive confidence indicator of +3.2 per cent, compared to +4.8 per cent in the previous quarter. In terms of employment, 21.1 per cent of businesses are anticipating hiring more workers, while 69.2 per cent are expecting to retain their staff during the first quarter of 2025.

Moreover, the role of Malaysia as ASEAN Chairman 2025 is expected to have a favourable impact on the performance of the country's labour market by increasing investment, rural development, labour skills, and the halal sector. Malaysia will attract more foreign investment through various initiatives and programs organised during the ASEAN Chairman's position⁶. This will create more job opportunities in major sectors such as technology, Manufacturing, and Services. Further, Malaysia will also focus on rural development through initiatives such as the ASEAN Villages Network (AVN), which will promote rural products across ASEAN. This is seen as increasing employment and economic opportunities in rural areas.

In addition, Malaysia will improve technical education and vocational training (TVET) to ensure that the local workforce has the skills needed to meet industry demand. Malaysia will also leverage the role of ASEAN Chairman to strengthen the halal sector and increase trade with countries such as China, Russia, India, and the Philippines⁷. This in turn will open up employment opportunities in the halal sector and increase the contribution of the sector to the country's Gross Domestic Product (GDP).

Therefore, in line with the country's growing economic performance and strong growth in the major sector of the country's economy, the nation's labour market is foreseen to remain in a stable growth momentum with an increasing number of employments, while unemployment is declining.

Note:

The monthly Labour Force Survey (LFS) indicators are still using the estimated population data of the Malaysia Population and Housing Census, 2010

Table C(i): Principal statistics of the labour force, Malaysia, January^r 2024, December^r 2024 and January 2025

| | | (%) | | | | | |
|----------------------|-----------------|----------|------------|-------------------------|------------------------------------|-----------------------------------|----------------------|
| Time Series | Labour Force | Employed | Unemployed | Outside Labour Force | Labour Force Participation Rate | Employment to Population Ratio | Unemployment Rate |
| 2024 | | | | | | | |
| January ^r | 16,789.3 | 16,229.4 | 559.9 | 7,026.8 | 70.5 | 68.1 | 3.3 |
| December' | 17,168.4 | 16,629.9 | 538.5 | 7,156.8 | 70.6 | 68.4 | 3.1 |
| 2025 | | | | | | | |
| January | 17,218.2 | 16,684.4 | 533.8 | 7,154.8 | 70.6 | 68.5 | 3.1 |

Notes:

1. Revision based on the current population estimates from Population and Housing Census 2020 2. Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Malaysia Population and Housing Census, 2010

$2.\ ^{1}\mbox{For 1982}$ - 2000, industry was classified according to the "Malaysia Industrial

- Classification, (Updated) 1972" as follows:
- A: Agriculture, forestry, livestock and fishing
- B: Mining and quarrying C: Manufacturing
- D: Electricity, gas and water
- E: Construction
- F: Wholesale and retail trade, restaurants and hotels
- G: Transport, storage and communications
- H: Finance, insurance, real estate and business services
- I: Community, social and personal services

3.²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
- B: Fishing
- C: Mining and quarrying
- D: Manufacturing
- E: Electricity, gas and water supply
- F: Construction
- G: Wholesale and retail trade: repair of motor vehicles, motorcycles and personal and household goods
- H: Hotels and restaurants
- I: Transport, storage and communications
- J: Financial intermediation
- $\mathbf{K}:$ Real estate, renting and business activities
- L: Public administration and defence; compulsory social security M: Education
- N: Health and social work
- O: Other community, social and personal service activities
- P: Private households with employed persons

- 4. ³For 2010 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:
- A: Agriculture, forestry and fishing
- B: Mining and quarrying
- C: Manufacturing
- D: Electricity, gas, steam and air conditioning supply
- E: Water supply; sewerage, waste management and remediation activities
- F: Construction
- G: Wholesale and retail trade, repair of motor vehicles and motorcycles
- H: Transportation and storage
- I: Accommodation and food service activities
- J: Information and communication
- K: Financial and insurance/takaful activities
- L: Real estate activities
- M: Professional, scientific and technical activities
- N: Administrative and support service activities
- O: Public administration and defence; compulsory social security
- P: Education
- Q: Human health and social work activities
- R: Arts, entertainment and recreation
- S: Others service activities
- T: Activities of households as employers
- 5. ⁴For year 2011-2019 & 2021-2023, total includes 'Activities of extraterritorial organizations and bodies'
- 6. ^r Revision based on the current population estimates from Population and Housing Census 2020
