LABOUR FORCE REPORT MALAYSIA

AUGUST 2025

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life'. Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

PREFACE

The monthly Labour Force Report, Malaysia, presents statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS) through a household approach. The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes, particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for August 2025 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN

GLOSSARY

Actively unemployed	:	Persons who were available for work and were actively looking for a job during the reference week.
Category of skills	:	For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: <p>Skilled workers:</p> <ol style="list-style-type: none"> 1. Managers; 2. Professionals; and 3. Technicians and associate professionals. <p>Semi-skilled workers:</p> <ol style="list-style-type: none"> 4. Clerical support workers; 5. Services and sales workers; 6. Skilled agricultural, forestry, livestock, and fishery workers; 7. Craft and related trades workers; and 8. Plant and machine operators and assemblers. <p>Low-skilled workers:</p> <ol style="list-style-type: none"> 9. Elementary occupations. <p>Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with the addition of group 0 - Armed Forces occupations.</p>
Economic activity	:	Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors: Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors.
Employed	:	All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker, or unpaid family worker.
Employee	:	A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind.
Employer	:	A person who operates a business, a plantation or other trade and employs at least one employee in his business or trade.
Employment-to-population ratio	:	The proportion of the employed population to working-age population.
Inactively unemployed	:	Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications.

GLOSSARY

Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside the labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers to conduct his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

MINISTRY OF ECONOMY
DEPARTMENT OF STATISTICS MALAYSIA

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjustment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

@StatsMalaysia

EXPLANATORY NOTES

Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia.

The revision of the LFS data series is performed when the most recent Population and Housing Census of Malaysia 2020 data is available. This census data is then used for the revision of the LFS data series to include additional information available from the latest Population and Housing Census of Malaysia. This process of incorporating revised population benchmarks is referred to as rebasing. On the same note, revisions are carried out on LFS data for January to December 2024.

KEY REVIEWS

- The number of **employed persons** continued to record increases in August 2025, rising by **0.2 per cent (+39.1 thousand persons)** to **16.99 million persons**, up from 16.95 million persons in July 2025. The **employment-to-population ratio**, an indication of the ability of an economy to create employment, increased by **0.1 percentage points** to **68.8 per cent** in August, compared to 68.7 per cent in July 2025.
- Across economic sectors, employment in the Services sector continued to register strong growth during the month, notably within Wholesale & retail trade; Information & communication activities; as well as Accommodation and food & beverage services. Similarly, the number of employed persons in the Manufacturing, Construction, Mining & quarrying, and Agriculture sectors also experienced an upward trend in August.
- In August 2025, the **employees'** category remained as the dominant category within the total employed persons, representing **74.9 per cent**. This group posted a **0.2 per cent (+20.2 thousand persons)** increase to **12.73 million persons** compared to 12.71 million persons in July 2025. Likewise, the number of **own-account workers** rose by **0.5 per cent (+15.4 thousand persons)** to **3.22 million persons** (July 2025: 3.21 million persons).
- During the month, the number of **unemployed persons** decreased by **0.3 per cent (-1.6 thousand persons)** to **520.0 thousand persons**, reversing the previous month's increase (July 2025: 521.6 thousand persons). August's **unemployment rate** was unchanged at **3.0 per cent** as recorded last month.
- The **labour force** was on an upward trend in August 2025, rising by **0.2 per cent (+37.5 thousand persons)**, reaching **17.51 million persons**, compared to the previous month (July 2025: 17.47 million persons). A higher **labour force participation rate (LFPR)** was recorded during the month at **70.9 per cent**, with an increase of **0.1 percentage points** compared to 70.8 per cent in July 2025.
- During the month, the number of persons **outside the labour force** increased by **0.2 per cent (+12.2 thousand persons)** to **7.20 million persons** as against the previous month (July 2025: 7.19 million persons). The main reason for being outside the labour force was due to **housework/family responsibilities**, which encompassed **43.7 per cent**, followed by the **schooling/ training** category at **40.7 per cent**.
- Malaysia's labour market is expected to remain resilient in the coming months, with the unemployment rate potentially remaining low, supported by stable economic growth, increased labour demand, and the recovery of key sectors such as Services and Manufacturing. Overall, the labour market is on a strong path and is anticipated to achieve its best performance in over a decade, provided the current positive momentum is sustained and continues to show encouraging progress.

1 INTRODUCTION

MALAYSIA'S CONTINUED STRONG ECONOMIC PERFORMANCE DROVE THE LABOUR FORCE TO REMAIN STABLE AND RESILIENT IN AUGUST 2025

Malaysia's economic framework is undergoing significant transformation through a series of proactive strategies aimed at fostering a dynamic labour market and ensure inclusive growth. Economic diversification and the empowerment of emerging sectors align with the broader objectives of the 13th Malaysia Plan (13MP), which focuses on diversification, and sustainable job creation. The collaboration between *Satu Creative* and *Yayasan Hasanah*, which launched an RM1 million fund to empower social enterprises nationwide¹, reflects a broader policy shift towards promoting entrepreneurship and building a more equitable economic landscape, contributing directly to a resilient labour market.

Apart from that, the launch of the *Temasya Oghang Kedah 2025* (TOK 2025) by the Raja Muda of Kedah, Tengku Sarafudin Badlishah, underscores a strong commitment to revitalising both domestic and international travel. As part of the Kedah Development Plan 2035 and the Year of Visiting Kedah 2025, the state targets attracting seven million visitors, a 35 per cent increase from 2024, thus catalysing growth in hospitality, retail, and creative industries². This surge in tourism demand is expected to generate thousands of new jobs, particularly for youth and women, supported by targeted upskilling initiatives. Additionally, the commitment to enhancing state-level tourism quality is gaining national recognition, exemplified by Pahang securing six accolades at the Tourism Industry Awards 2025, including the award for the Best Highest Average Occupancy Rate³. This strong performance directly translates into a rising demand for skilled workers in hospitality and supporting industries, spurring job creation and necessitating targeted upskilling programmes to improve the quality of regional employment.

Moreover, the tourism sector has increasingly positioned itself as a key driver of economic growth and employment, supported by coordinated promotional efforts at both state and national levels. In Sarawak, the 22nd edition of the MATTA Fair Sarawak held in August reflects renewed confidence in domestic tourism, offering curated travel packages and incentives that stimulate consumer spending while supporting micro, small, and medium enterprises (MSMEs). Through collaborations with national carriers and financial institutions, including Malaysia Airlines, Firefly, and RHB Bank, the fair aims to attract a diverse range of travellers, from solo adventurers to families, by promoting high-value, sustainable travel options that showcase Malaysia's natural beauty and cultural heritage⁴. The fair reinforces tourism's growing role in sustaining livelihoods, boosting consumer confidence, and creating employment opportunities.

In addition, Malaysia sustained its proactive efforts to revitalise the labour market through targeted MyFutureJobs initiatives, led by SOCSO. The efforts included walk-in interviews held on 14 August 2025 at the MYFutureJobs Career Exploration Centre (MYCEC), NU Sentral, focusing on high-demand roles within the fast-growing IT and Technology sector⁵. Furthermore, the launch of the MYFutureJobs Professional Careers programme in mid-August provided specialised opportunities for high-skilled job seekers. Inclusive hiring events in areas such as Rawang also expanded access for underrepresented groups, including Persons with Disabilities (PWD) and the Orang Asli community⁶. These initiatives effectively bridged employment gaps and stimulated economic growth by aligning talent with key sectors

⁵ <https://www.facebook.com/myfuturejobsofficial/posts/-walk-in-interview-announcement-myfuturejobs-invites-all-job-seekers-to-join-the/1066636219003939/>

⁶ <https://myfuturejobs.gov.my/career-fairs-more-events/>

such as logistics, F&B, and Manufacturing⁷. Dedicated recruitment initiatives also supported the expanding tourism industry. By fostering direct employer engagement and delivering comprehensive career services, the government reaffirmed its commitment to inclusive workforce development and regional economic empowerment.

Therefore, the country's labour market continued to expand in line with steady economic growth, bolstered by strategic investments in high-impact sectors. Malaysia Aviation Group's (MAG) acquisition of new aircraft has been reaffirmed as a long-term investment aimed at strengthening capacity and driving revenue growth. According to Minister of Investment, Trade and Industry Tengku Datuk Seri Zafrul Tengku Abdul Aziz, such investments are not merely expenditures but act as catalysts for productivity, export expansion, and job creation⁸. The aerospace sector alone contributed RM25.1 billion in revenue last year, and with increasing global demand, Malaysia's Boeing Composites Malaysia (BCM) facility is expected to scale up production and expand its workforce beyond the current 1,000 local employees⁸. These developments not only enhance Malaysia's competitiveness in global aviation but also create spillover benefits for tourism, logistics, and manufacturing. Nonetheless, sustaining this momentum requires continued attention to structural challenges such as skills mismatches, automation risks, and equitable access to opportunities. As such, Malaysia's strong economic performance drove the labour force to remain stable and resilient in August 2025.

As for the Malaysian economic indicators, the Leading Index (LI) posted a decline of 0.5 per cent year-on-year to 114.3 points in July 2025 (July 2024: 114.9 points). The monthly LI performance rebounded by 0.5 per cent compared to a negative growth recorded in the previous month. In terms of the smoothed long-term trend in July 2025, the LI remained below 100.0 points, signalling a moderate trajectory ahead for Malaysia's economy. Stronger sectoral performance and steady internal demand are expected to position the nation well to navigate global challenges. Meanwhile, the external trade indicators for August 2025, showed negative growth for both exports and imports, with exports decreasing by 6.0 per cent (July 2025: 15.2%), while imports falling by 8.0 per cent (July 2025: 10.9%).

2 EMPLOYED PERSONS

The number of employed persons continued to record increases in August 2025

The number of **employed persons** continued to record increases in August 2025, rising by **0.2 per cent (+39.1 thousand persons)** to **16.99 million persons**, up from 16.95 million persons in July 2025. In terms of seasonally adjusted estimates, the number of employed persons also showed a 0.2 per cent increase month-on-month. On a year-on-year basis, the number of employed persons expanded by 3.1 per cent, equivalent to an increase of 505.2 thousand persons from 16.48 million recorded in August⁷ 2024.

Across economic sectors, employment in the Services sector continued to register strong growth during the month, notably within Wholesale & retail trade; Information & communication activities; as well as Accommodation and food & beverage services. Similarly, the number of employed persons in the Manufacturing, Construction, Mining & quarrying, and Agriculture sectors also experienced an upward trend in August.

The **employment-to-population ratio**, an indication of the ability of an economy to create employment, increased by **0.1 percentage points to 68.8 per cent** in August 2025, compared to 68.7 per cent in

⁷ <https://www.facebook.com/photo/?fbid=1079546367712924&set=pb.100069727130291.-2207520000>

⁸ <https://www.hmetro.com.my/bisnes/2025/08/1248960/tidak-boleh-tunggu-kapal-terbang-uzur-tidak-boleh-terbang-baru-cari-yang>

July 2025. On a yearly comparison, the ratio rose by 0.5 percentage points from 68.3 per cent recorded in August^r 2024 [Chart 1].

Chart 1: Employed persons and employment-to-population ratio, January 2024 - August 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In August 2025, the **employees**¹ category remained as the dominant category within the total employed persons, representing **74.9 per cent**. This group posted a **0.2 per cent increase (+20.2 thousand persons)** to **12.73 million persons** compared to 12.71 million persons in July 2025. Likewise, the number of **own-account workers** rose by **0.5 per cent (+15.4 thousand persons)** to **3.22 million persons** (July 2025: 3.21 million persons). This category mostly consists of daily income earners engaged in small-scale enterprises, including retailers, hawkers, market and stall vendors, as well as smallholders [Chart 2].

Chart 2: Employed persons by status in employment, July and August 2025

The number of **employed persons who were temporarily not working** in August 2025 edged down by **5.0 per cent (-4.5 thousand persons)** to **85.1 thousand persons**, as compared to 89.6 thousand persons during the month. Annually, the figure increased by 11.3 per cent (+8.6 thousand persons) compared to August^r 2024 at 76.5 thousand persons. This group comprises individuals who were temporarily not working but were not classified as unemployed, as they had work to return to.

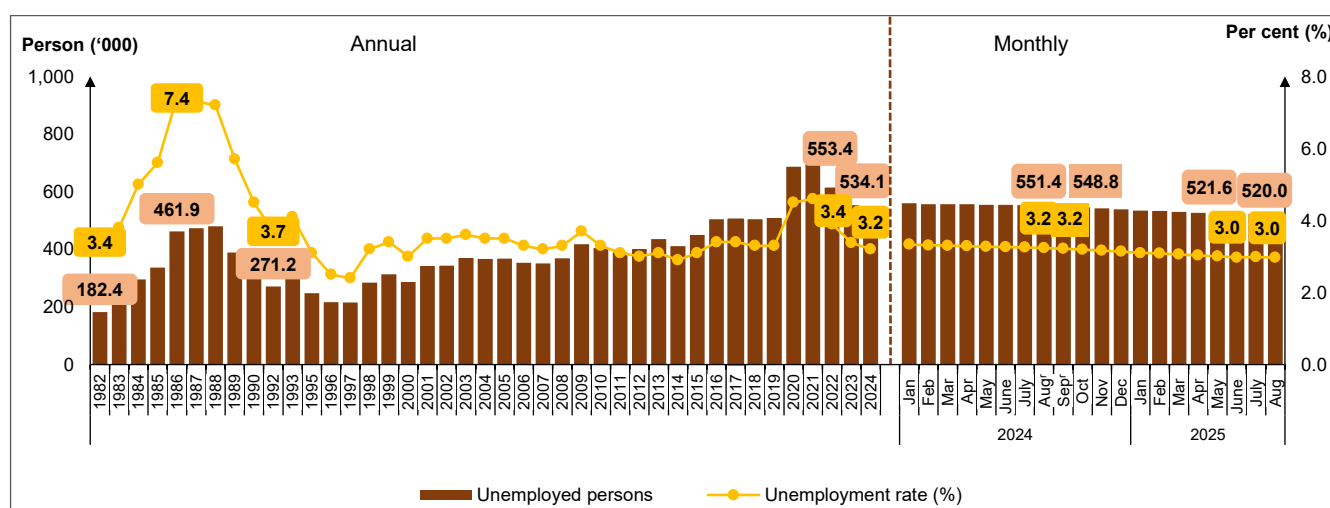

3 UNEMPLOYMENT

The unemployment rate in August was unchanged at 3.0 per cent

During the month, the number of **unemployed persons** decreased by **0.3 per cent (-1.6 thousand persons)** to **520.0 thousand persons**, reversing the previous month's increase (July 2025: 521.6 thousand persons). August's **unemployment rate** was unchanged at **3.0 per cent** as recorded last month. In seasonally adjusted terms, the number of unemployed persons declined by 0.3 per cent, with a 3.0 per cent unemployment rate.

On an annual basis, the number of unemployed persons fell by 5.7 per cent (-31.4 thousand persons) as compared to August[†] 2024 with 551.4 thousand persons. Therefore, the unemployment rate fell by 0.3 percentage points from 3.2 per cent recorded in August[†] 2024 [Chart 3].

Chart 3: Unemployment, 1982 - 2024 and January 2024 - August 2025

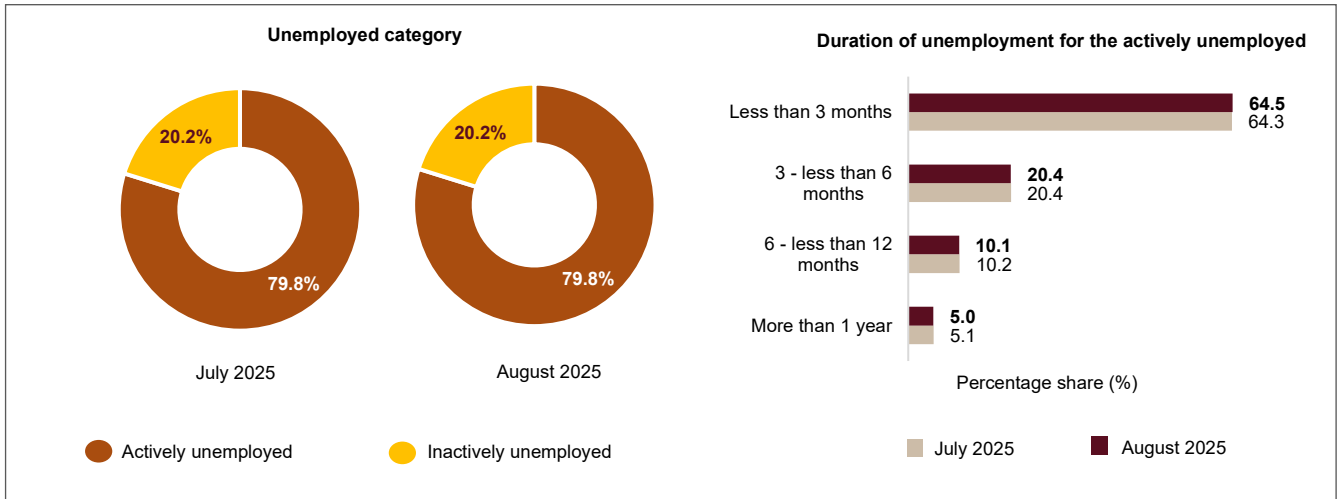

Note: [†] Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In terms of the unemployment category, the **actively unemployed**, or those who were available for work and actively seeking jobs, made up **79.8 per cent** of the total unemployed persons in August 2025. This group recorded a decrease of **0.3 per cent (-1.3 thousand persons)** to **414.9 thousand persons** (July 2025: 416.2 thousand persons). Out of the total of actively unemployed, **64.5 per cent** were those who were **unemployed for less than three months**, while those who had been **unemployed for more than a year⁹** were **5.0 per cent**.

Similarly, the **inactively unemployed**, or those who believed that no jobs were available, registered a month-on-month decline of **0.3 per cent (-0.4 thousand persons)** to **105.1 thousand persons** (July 2025: 105.5 thousand persons) [Chart 4].

⁹ Referring to a person who has been unemployed for one year or longer (Source: KILM: Long-term unemployment)

Chart 4: Unemployed category and duration of unemployment for the actively unemployed, July and August 2025

The unemployment rate for youth aged **15 to 24 years** in August 2025 remained unchanged at **10.2 per cent**, with **298.0 thousand unemployed youths** (July 2025: 10.2%; 298.9 thousand persons). Similarly, the unemployment rate for youth aged **15 to 30 years** stood at **6.2 per cent**, registering **398.7 thousand unemployed youths** (July 2025: 6.2%; 399.0 thousand persons) [Chart 5].

Chart 5: The number of unemployed persons and unemployment rate by selected age groups, 1982 - 2024 and January 2024 - August 2025

Note: † Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

4 LABOUR FORCE

August's LFPR rose to 70.9 per cent

The **labour force** was on an increasing trend in August 2025, rising by **0.2 per cent (+37.5 thousand persons)**, reaching **17.51 million persons**, compared to the previous month (July 2025: 17.47 million persons). A higher **labour force participation rate (LFPR)** was recorded during the month at **70.9 per cent**, with an increase of **0.1 percentage points** compared to 70.8 per cent in July 2025. Based on the seasonally adjusted estimates, the labour force also showed a consistent uptrend, with the number went up by 0.2 per cent, while the LFPR was recorded at 70.9 per cent.

Year-on-year, the labour force rose by 2.8 per cent, the equivalent of an additional 473.8 thousand persons from 17.03 million persons in August^r 2024. The LFPR increased by 0.3 percentage points compared to 70.6 per cent in the same month last year [Chart 6].

Chart 6: Labour force and LFPR, 1982 - 2024 and January 2024 - August 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In August 2025, both the male and female labour forces registered continued growth. The **male labour force** reached **11.03 million persons** (July 2025: 11.01 million persons), while the **female labour force** rose to **6.48 million persons** (July 2025: 6.46 million persons). In terms of LFPR, both the **male and female LFPR** remained the same as in the prior month, with **male LFPR** at **83.3 per cent**, while the **female** was at **56.5 per cent**.

Compared to August^r 2024, the male labour force edged up by 3.3 per cent from 10.68 million persons, and the female labour force improved by 1.9 per cent from 6.36 million persons. This indicated a year-on-year increase in LFPR, with male rising by 0.2 percentage points from 83.1 per cent and female increasing by 0.1 percentage points from 56.4 per cent [Chart 7].

Chart 7: Labour force and LFPR by sex, 1982 - 2024 and January 2024 - August 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

5 OUTSIDE LABOUR FORCE

The main reasons for being outside the labour force was due to housework/ family responsibilities

During the month, the number of persons **outside the labour force** increased by **0.2 per cent (+12.2 thousand persons)** to **7.20 million persons** as against the previous month (July 2025: 7.19 million persons). Compared with one year earlier, the number rose by 1.4 per cent (+99.1 thousand persons) as against 7.10 million persons registered in August¹⁰ 2024.

The main reason for being outside the labour force was due to **housework/ family responsibilities**, which encompassed **43.7 per cent**, followed by the **schooling/ training** category at **40.7 per cent** [Chart 8].

Chart 8: Share of outside labour force by reasons for not seeking work, July and August 2025

6 LOOKING AHEAD

Approaching the third quarter of 2025, Malaysia's economic performance is seen to remain strong, supported by sustained domestic demand, a trade surplus, and controlled inflation. Key contributing factors to this resilience include strategic investments, the recovery of the export sector, and MADANI economic policies¹⁰. In terms of economic sectors, the Services sector remains the key driver of national economic growth, particularly in Wholesale & retail trade, Accommodation, food & beverages, as well as Information and communication activities. The Manufacturing, Construction, Agriculture, and Mining & quarrying sectors also recorded positive growth¹¹.

Additionally, as viewed from a regional comparison, Malaysia recorded better economic performance than Singapore and Thailand but still lags behind Vietnam, the Philippines, and Indonesia. This disparity reflects the diversity in economic structures and policy strategies among ASEAN countries. In line with that, the country's stable economic performance, with a Gross Domestic Product (GDP) growth of 4.4 per cent and a trade surplus, is seen to drive the creation of new job opportunities. Furthermore, government policies which support household spending and strategic investments, also strengthen domestic demand and business confidence.

¹⁰ <https://www.bharian.com.my/bisnes/lain-lain/2025/09/1444635/prestasi-ekonomi-malaysia-lebih-baik-daripada-singapura-thailand>

¹¹ <https://www.bharian.com.my/bisnes/lain-lain/2025/09/1444835/pasaran-buruh-malaysia-hampiri-prestasi-terbaik-dalam-tempoh-lebih>

However, global uncertainties such as geopolitical tensions and tariffs are expected to exert pressure on the export and Manufacturing sectors. In addition, the surge in investment in the digital economy and automation is driving demand for high-skilled workers such as software engineers, data analysts, and cybersecurity experts¹². The post-pandemic recovery of the tourism sector and Malaysia's role as ASEAN Chairman 2025 are also expected to boost demand for workers in Accommodation, food and beverage, and customer service industries. Therefore, aligning workforce skills with industry needs requires ongoing strengthening through continuous reskilling and upskilling efforts to ensure the labour market remains competitive in facing future challenges.

Thus, Malaysia's labour market is expected to remain resilient in the coming months, with the unemployment rate potentially remaining low, supported by stable economic growth, increased labour demand, and the recovery of key sectors such as Services and Manufacturing. Overall, the labour market is on a strong path and is anticipated to achieve its best performance in over a decade, provided the current positive momentum is sustained and continues to show encouraging progress.

Notes:

1. The Labour Force Survey statistics for 2019 and preceding years are estimated based on the Population and Housing Census of Malaysia 2010

2. The Labour Force Survey statistics for 2020 and onwards are estimated based on the Population and Housing Census of Malaysia 2020

3. ¹For 1982- 2000, category of occupation are classified according to the "Dictionary of Occupational Classification, 1980" as follows:

- 1: Professional, technical and related workers
- 2: Administrative and managerial workers
- 3: Clerical and related workers
- 4: Sales workers
- 5: Service workers
- 6: Agricultural, animal husbandry and forestry workers, fishermen and hunters
- 7: Production and related workers, transport equipment operators and labourers

4. ²For 2001 - 2010, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 1998" as follows:

- 1: Legislators, senior officials and managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural and fishery workers
- 7: Craft and related trade workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

5. ³For 2011 - 2015, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2008" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural, forestry and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

6. ⁴For 2016 - 2021, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2013" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service and sales workers
- 6: Skilled agricultural, forestry, livestock and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

7. ⁵For 2022 onwards, categories of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2020"

Notes:

1. The Labour Force Survey statistics for 2019 and preceding years are estimated based on the Population and Housing Census of Malaysia 2010

2. The Labour Force Survey statistics for 2020 and onwards are estimated based on the Population and Housing Census of Malaysia 2020

3. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

4. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

5. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Other service activities
 T: Activities of households as employers

6. ⁴For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'

Table E: Employed person by industry, Malaysia, 1982 - 2024 (cont'd)

('000)

Notes:

1. The Labour Force Survey statistics for 2019 and preceding years are estimated based on the Population and Housing Census of Malaysia 2010

2. The Labour Force Survey statistics for 2020 and onwards are estimated based on the Population and Housing Census of Malaysia 2020

3. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

- A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

4. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

5. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

- A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Others service activities
 T: Activities of households as employers

6. ⁴For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'

Table F: Employed person by status of employment, Malaysia, 1982 - 2024

('000)

Time Series	Total	Status of Employment
